

Droid Aarogya Vidhi [DAV] is a multi-specialty. medical care services polyclinic, which is a division of Droid Innovations Pvt. Ltd. Droid Aarogya Vidhi has been launched primarily to provide adjunct curative, regenerative and Rejuvenative treatment to the patients providing curative outcomes for over 350 day to day ailments.

DAV has acquired many globally recognized therapy machines including FDA approved machines for improving heart, kidney and liver functions, Musculo skeletal system disorders, for patients who are middle aged individuals and have many lifestyle disorders. Also, these machines help the individuals in their late 40s and 50s who do not have healthy lifestyles and their metabolic health is compromised, here is the opportunity to rejuvenate, stimulate the nervous system and circulatory system etc. \.

After studying the physical conditions, pathological parameters and disabilities of the patients, our team of doctors and trained nurses do a thorough medical profiling and may ask the patient for important relevant tests, based on the outcomes a specific plan of treatment "protocol" is created, aimed at improving the overall health parameters / reduce pain / help in cellular regeneration / cartilage regeneration / metabolic boost / re vascularization in the body. These processes eventually result in desired outcomes and treat various lifestyle diseases and conditions. Including reducing Cardiac Blocks, Improving Cardiac, Lung, Liver and Brain function. Reducing the impact of the disc bulge, reducing osteoarthritis, Osteoporosis.

For many patients a simple maintenance plan is created suggesting once in week / once in a fortnight or even once in a month which is useful to keep the body in a healthy condition. These new technology Machines may be useful to keep many body organs functioning and keep untoward incidences at bay
